Objective

Motivated and detail-oriented frontend developer with a strong foundation in HTML, CSS, and JavaScript. Passionate about creating responsive, user-friendly web interfaces and learning modern frameworks like React. Quick learner with a problem-solving mindset, eager to contribute to team projects and grow in a dynamic development environment. Committed to writing clean, efficient code and continuously improving technical and design skills.

Technical skills

- **Programming language** : HTML5, CSS, Javascript, python.
- **Frameworks** : tailwind, bootstrap.
- **Libraries**: Reactjs, Nextjs.
- **Tool and platform**: Visual studio code, and GitHub.

Projects

Calculator:

Built a functional calculator supporting basic arithmetic operations with an interactive interface. Focused on accurate calculations and smooth user input handling using JavaScript.

Search & Filter API:

Developed a web application that fetches data from APIs and enables real-time search and filtering functionality. Improved user experience by implementing dynamic data handling and responsive UI for quick and efficient results.

React To-Do List:

Built a responsive task management application using React with features to add, edit, and delete tasks. Implemented state management and dynamic rendering to provide a seamless and interactive user experience.

Academic Qualification

Mangalmay Institute of Engineering and Technology

(Bachelor of Computer Application) (2023 – 2026)

- **12th (UP Board) (2020 – 2021)**
- **10th (UP Board) (2018 – 2019)**

Certificates

- Frontend Developer (from Ainwik Infotech)
